

# IS COVID19 A BIO WAR? (1)

***Published on: May 16th, 2020***

Since the times many wars were waged for different purposes. And each war brought an innovation. The world war I And II brought lot of advancement in technology and usage of weapons. Every war waged over the periods of time taught us something important in life. Wars in 21 centuries would be WARS WITHOUT WEAPONS and the same thing is happening in the world in the present situation. BIO WAR is the new type of war which is happening in the world .The world is going through the phase of pandemic .The phase of pandemic is not new on this earth but taking this pandemic virus as a bioweapon is new trend of waging war when we just fall back through the history perspective it can be easily noted that every century the world faces a pandemic in 1720 there was a deadly pandemic of bubonic plague. It started in Marseille and was later called "The Great Plague of Marseille ,cholera pandemic in 1820,The Spanish flu pandemic of 1918, the deadliest in history, infected an estimated 500 million people worldwide And 2020 CORONA VIRUS though it started in 2019 but the real effect came into existence in the year 2020 .if we see the trends of history it clearly shows that it is related to nature but with some special reasons this can be quoted as a bio war .so let's see how far it is a bio war ?

The first case regarding the COVID 19 was registered in the WUHAN, in the 1st week of December and by the 3rd week of January i.e. within 50 days it has reached 1000 cases . And with in a short period of time it was spread throughout the world .The intensity of virus was so high that it had killed thousands people in a day .But we don't have any traces of how the virus has occurred but china has given a statement that this was passed through the bats .as bats can resistes many viruses .and they have blamed the Wuhan see food market for this .and they also mentioned that it was passes through pangolins .This was something which was said by China regarding the spread of virus .They have blamed that the virus is originated from see food market of Wuhan .but I don't think was true .as we have many other reasons for the organization of virus .

in the year 2003 (SEVERE ACUTE RESPIRATORY SYNDROME ) SARC was existing in china where it has effect 8000 people killing 800 people during this SARC period ,and the symptoms of this were closely like COVID19 which is existing now in the world .The fact is that even the SARC is originated from bats after this phase china has set up a lab for storing the all the viruses in Beijing .and by 2015 anew lab was set up in Wuhan with all the advance technology and many countries also claim that Wuhan lab is set up for improving bioweapons .and there are many assumptions that COVID19 has taken origin from Wuhan lab but china government was trying shift the blame on the see market of Wuhan .

A Doctor named Dr.LI WENLING who died in the first week of February where he has already predicted that COVID19 is originated from Wuhan lab and he has given many

root causes of the virus .but the sad reality is that he was arrested by the police of china saying that he was spreading the false allegations about the virus and DR LI WENLING died in February and it was mentioned that he died because of COVID19 .this is a conspiracy of china killing a doctor .

At the initial stage even the world health organization was not serious about this pandemic .many countries didn't take measures to protect their countries even India is among them where it did not take proper measures to protect its nation today almost 210 countries of the world are with COVID 19 .the main issue is that when WHO has intervened in the matter of US and china .where US has banned travel from china .WHO has intervened and they have allowed the travel which resulted in increase of cases. China can't wage a war with the US as they have the most powerful weapons and advanced military forces so in this way it can wage a war.

Now all the countries of the world are in the lockdown situation .and we clearly see that the situation in china is under control. The stock market of china is stable moreover countries like Spain and Italy have purchased a lot of medical equipment from china this way china is trying to make the cash. Due to the lockdown situation all the manufacturing sectors are down so many countries are importing many goods from China.

The war is on and after some days china will come out with its vaccine for COVID 19 and will try to make cash out of it .but the sad reality is that many people are inflated each day .and many countries are in the lockdown situation the world is in health emergency and all the commies are down the world is going through the pain of pandemic many of the people lost their loved once . we exactly don't know who has created it , but a book with title THE EYES OF THE DARKNESS BY DEAN KOONTZ , which was published in the year 1981 revealed a same situation where a bio war like situation will be created in the world and this was mentioned with the virus name called WUHAN 400 .

Now we can just pray for the world that's all we don't know who has created this weather the nature or china but the pain is real let's hope for the best may this world get rid out of this COVID 19.
